Anson Chow

Toronto, ON | chow.anson25@gmail.com | 647-812-0822 | [E-portfolio](#)

Technical Skills

Languages: HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+ | Typescript | Python
Frameworks: React (+ hooks) | Express.js | MongoDB | Node.js | Next.js
Technology: NPM | Git | Firebase v9 | GitHub | Strapi | AWS | Excel | Jest | Docker

Experience

Full Stack Developer   Jan 2023 – Current
Civiconnect

- Leveraged *Strapi, a headless CMS, and AWS* for efficient website development and deployment, ensuring seamless integration of dynamic content and optimal performance
- Utilized *Next.js*, a modern React framework, to develop high-performance websites with lightning-fast loading times and enhanced interactivity
- Demonstrated proficiency in using *Git version control and the GitHub interface*, effectively contributing to a virtual and collaborative team environment

Frontend Developer Intern   July 2022 – Oct 2022
A&J Security

- Redesigned the company website using *Next.js, React, and JavaScript*, significantly improving performance, SEO, and user experience
- Collaborated closely with the design team throughout the website creation process, actively contributing to the design decisions using industry-standard tools such as *photoshop and figma*

Frontend Developer Intern   Mar 2022 – Jun 2022
Frontend Simplified

- Transformed a completely *static HTML, CSS, JavaScript and React* single page application into an interactive user interface *using animations, transitions and carousels*
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through *skeleton loading states, pagination and dynamic routing*

Projects

NASA Mission Control | [Website](#) | [GitHub](#)
- Full-stack MERN project that integrated NASA data and SpaceX API to provide users with an interactive rocket launching experience
- Utilized Docker to containerize the application and AWS EC2 to host the project

PromptGPT | [Website](#) | [GitHub](#)
- Full-stack application built with Next.js version 13, designed for users to create and share their own AI prompts
- Implemented user authentication, advanced search capabilities, filtering options, content editing and secure data deletion

Extracurriculars

Business Management Director –Toronto Metropolitan University   May 2022 – Sept 2022
- Actively represented 13,000+ business undergraduates, contributing to multiple student groups and committees
